

we've got quite
the line-up.
you will want to
take a seat.

back in 1982, gary neil, president and founder of allseating, was building seating prototypes in his garage. today, he has built one of the broadest line-ups of workplace solutions in the industry. it's this dedication to good design and good quality at a good price that has made the workplace more comfortable. and it's what makes allseating the kind of company you've always wanted to work with.

we sit around all day developing ways for you to rest easy.

find, spec and track your orders without leaving the comfort of your chair.

SpecAll – Our online 3D specification tool features a user-friendly interface that enables you to specify, customize and price a product just the way you want it in full 360° preview. Once it's been ordered, use the Dealer Login feature* to access your account, prepare orders and specs, and get an up-to-date status anytime.

CAP/Giza Worksheet Catalogs – Take your project from sales to design with ease by accessing our entire product library using CAP/20-20 Giza Studio™, available for download at www.2020technologies.com.

Electronic Catalog – Our latest catalog is available through our Download Center at www.allseating.com

**Some restrictions may apply on this feature. Please check with your customer service representative for eligibility.*

tailor your chairs to suit your style.

We're proud to partner with Momentum, Spinneybeck, Maharam and Guilford of Maine Fabrics to offer you more than 500 fabrics. They're conveniently categorized in our online catalogue by colour, pattern, grade and manufacturer.

get the best seats in the house in less time (and with less stress) than you'd think.

72 Hour Express – 72 Hour Express shipping is available on most items from our Allseating and Nowseating Collections in an extensive range of fabrics.

On-time Guarantee – We're proud to report that we earned 96.8% on our on-time performance scorecard last year. However, if for some reason we cannot get an order to a Focus Dealer as promised, we'll compensate you for any inconvenience.

we've got your back, and your butt, covered.

Warranty Response Team – Our Warranty Response Team is specially trained to expedite any service issues. If a customer happens to receive a chair that doesn't measure up to their expectations, we swiftly investigate and solve any problems. We also track each and every issue so we can quickly identify trends and take proactive measures to prevent reoccurrences.

task

cpod

The most customizable back support ever designed! Five independent adjustment zones, each featuring 15 settings for completely personalized support. Three pivot points enhance body movement.

fluid

One chair to fit all. A variety of adjustments can be tailored to support virtually any body type. Mesh seat distributes body pressure evenly and maximizes air circulation. Upholstered seat also available.

inertia mesh

Part of the broader Inertia family of chairs. A classically modern design and breathable mesh back offer great looks and superior comfort at an affordable price.

inertia upholstered

Delivers the same overall value and sleek design aesthetic as the Inertia Mesh Chair, but with an upholstered back.

presto

Rugged construction, contoured back, molded seat foam and stylish design provide versatility, durability and functionality. Available in three sizes.

zip upholstered

Sleek design and bright aluminum finish details add 'zip' to any workplace. Available in leather and a range of dynamic fabric patterns.

zip mesh

Available in two stylish mesh patterns, Zip Mesh combines style, performance and durability.

therapod

Features a patented Customized Back Support System to accommodate every region of your back.

chiroform

Features a fully contoured, double-curve backrest for superb lumbar support.

chiroform ULTRA

Designed for heavy usage and the most intense tasks, Chiroform ULTRA is durable enough to take on the challenge — and look good doing it.

backtrack

A sculpted seat and double-curve backrest respond to the ongoing movement of the body and a range of working styles and situations.

satoo

A streamlined design and easy-to-use adjustments makes Satoo a simple solution for multi-use environments. Height-adjustable headrest offers additional comfort.

conference

you

Features a revolutionary U-shaped frame, unique mesh and back suspension that raises and lowers to create a convex curve that conforms to support the entire back.

astute

A post-modern design, horizontal stitching, polished aluminum statue arms and base, create a smart choice for conference solutions.

dax

Features a contemporary double-stitch design detail and optional two-tone upholstery for a stylish, yet versatile, look.

zip conference

Sleek design and bright aluminum finish details add 'zip' to any workplace. Available in leather and a range of dynamic fabric patterns.

inertia conference

Features a contemporary conference arm detail to bring Inertia style and value to the boardroom.

os

Gracefully engineered aluminum-cast chassis and frame make a bold, definitive statement in executive suites and conference rooms.

side

ray

Rational post-modern design features a React Mechanism that self-adjusts based on the weight of the user.

fluid side

Features a streamlined design and a breathable elastomeric mesh back to provide optimal comfort.

multiflex

A unique Flexion seat passively flexes with downward and forward pressure, while the molded back pivots back and forth to conform to body movement.

multistack

Perforated design maximizes airflow while its molded back provides continuous support.

inertia side mesh

Stylish, simple and sturdy with a breathable mesh back for optimum comfort.

inertia side upholstered

A popular and contemporary side chair with the comfort of an upholstered seat and back.

rainbow

Available in a broad spectrum of colors to brighten any workplace. A 4-leg version is also available.

satoo side

A streamlined design and solid construction create both contemporary and comfortable guest seating.

tis

Compact and space-saving, with the ability to stack up to 30 chairs high.

specialty

zip side

Mesh back and polished aluminium finish details create trendy guest and occasional seating.

Available July 2010.

multiflex tablet

Featuring a sturdy tablet that can support up to 250lbs, Multiflex Tablet is a stable and comfortable addition to any classroom or training facility.

chiroform big

A fully contoured, double-curve backrest offers superb lumbar support and is ideal for task-intensive environments. Provides support up to 500lbs.

chiroform ULTRA 24/7

Offers a sense of style and strength to even the most intense 24/7 applications.

presto 24/7

Durable design features a rugged construction for continuous use.

inertia height-adjustable stool

Inertia style and value take on new heights with this highly flexible stool package.

presto height-adjustable stool

Offers Presto's noted durability and rugged construction in a height-adjustable stool.

dove stool

Durable self-skinned polyurethane microcellular foam is ideal for tough usage environments.

zip stool

A stylish sleek stool ideally suited for modern workspaces.

chiroform ULTRA stool

Available in highback and midback models, brings ergonomic comfort to stool applications.

fluid stool

Flexible elastomeric mesh stretched over a glass filled nylon, stool height frame.

last year, we earned 97% on our overall performance scorecard.

As an ISO9001:2000 registered company, we're committed to ensuring that every single one of our chairs meets the highest quality standards — right through to delivery schedules. It starts with an incoming raw materials inspection that is conducted on all resources we purchase and it continues with in-process inspections at each workstation. Before we let any product leave the building, we give each one a final inspection and mark of approval.

In addition to making certain that our chairs meet all expectations out-of-the-box, our shipping policies ensure that each chair arrives when we say it will.

However, no standards are as high as our customers'. So we routinely make 'Voice of the Customer' calls to solicit feedback on the quality of our products and services.

we're sensitive to the footprint we leave behind.

Whether it's ensuring that all of our products are GREENGUARD® Certified for Indoor Air Quality, or earning ISO 14001 Certification to help minimize waste, every member of the Allseating team has made reducing our environmental footprint their goal. We know that every step, no matter how small, can go a long way in making big changes for the better.

“never having to leave the comfort of your chair... that’s how i define good service.”
